

# Counselling Skills

24-27 January 2013

## A Selection of Student Feedback

### 1. Quality of material

*Very good - nice concise handouts and just enough information.  
Relevant, interesting, engaging.  
Good coverage of skills - can see a practical application of them already.*

### 2. Teaching of material

*Vibrant, informative, attention-stimulating.  
Wonderfully presented: crisp and clear, perfectly paced and very 'boundaried'.  
Clear and to the point, in easy-to-follow and comprehensible steps.*

### 3. Usefulness of practical work in the large group

*Good to practice - great boundaries and feedback.  
Very useful and supporting. Good for introducing new ideas, thoughts and opinions*

### 4. Usefulness of practical work in your small group

*Very helpful consolidation - good holding and handling.  
Having the same group across the four days enabled a deepening of trust.  
Challenging but supportive - room for growth*

### 5. Anything you want to say about the Rogerian philosophy which imbues our teaching

*The practice of reflecting back is very powerful. I also really enjoyed working from stillness and spaciousness, and think these will help my CST work.*

### 6. Anything else you want to say

*Thank you very much. I was delighted and inspired.  
This has been an enlightening four days - thank you!  
Altogether inspiring.  
Pace and quality of teaching and gentle touch very much appreciated.  
Very well paced course. Wonderful holding of subject and students.*
